ABOUT ME

- Aspiring AI/ML Engineer specializing in Computer Science, Artificial Intelligence, and Machine Learning.
- Experienced in Python-based data engineering and predictive modeling, with a strong foundation in Data Structures, Algorithms, and Core Mathematics.
- Continuously looking to build and scale end-to-end intelligent applications .

SKILLS

- Languages - Java, Python
- Data Science - Pandas, NumPy, Matplotlib, Seaborn
- AI/ML - Scikit-Learn, TensorFlow
- Web - HTML, CSS, JavaScript, Flask, Bootstrap
- Tools - Git, GitHub, VS code, Google Colab

EDUCATION

COMPUTER SCIENCE WITH AI/ML (CSE-AIML)

Bachelor of technology, CSE-AIML

Galgotias College of Engineering and Technology | 2024 - 2028

Cumulative GPA - 8.69

SENIOR SECONDARY (12TH GRADE)

Army Public School, Prayagraj

Percentage - 92.6

SECONDARY (10TH GRADE)

Army Public School, Prayagraj

Percentage - 96.8

PROJECTS

MOVIE RECOMMENDER SYSTEM

Github- <https://github.com/Shubhanshi-Shaurya/Sentiment-analysis>

Tech Stack - Python, Scikit-Learn, Pandas, NumPy, Google Colab

- Developed a content-based filtering recommendation engine that analyzes movie features to suggest personalized content based on user preferences.

WHATSAPP CHAT ANALYZER

Github- <https://github.com/Shubhanshi-Shaurya/WhatsApp-chat-Analyzer>

Tech Stack - Python, Scikit-Learn, NLTK, Pandas, NumPy, Google Colab, streamlit

- A WhatsApp chat Analyzer that extracts meaningful insights from exported WhatsApp chats., helps user analyze chat activity.
